

Holy Family School Skills & Resource Survey

Faith in action is love – And love in action is service.

~ Mother Theresa

By our faith, we are called to serve. Service is an integral part of our children's understanding of living the faith. Throughout the school year, we ask them time and again to give of themselves to help those around them. Just as we help those in the community, we must also be good stewards within our own church and school. It takes many people sharing their time and talents to maintain our properties and provide our children with the resources they need. When we can form a connection between the jobs that need to be done and our own passions and skills, often we will find our own joy in serving others.

We rely on the skills and talents of our parents, grandparents, parishioners, and friends of Holy Family School. Please take the time to fill out this Skills & Resource Survey, and take into consideration the ways in which you can serve and make a difference at Holy Family.
